

24LF Texas Rock

Date of Birth: 02/20/2024

Courtesy of Landes Farms

A pedigree that is stocked with 90 & 100" individuals. He has the bone structure and capacity that can take a program to the next level and horn but should also be able to give you futurity prospects. His dam is one of the most complete females that we own and always a crowd favorite with visitors. Bulls can be dime a dozen but a future herd sire with this potential can change the breed forever.
